GRADE 8-9 £35,235 - £40,476

PERMANENT CONTRACT

37 HOURS PER WEEK

(FLEXIBLE, PART TIME HOURS CONSIDERED)

CLOSING DATE: 20TH JANUARY 2025

INTRODUCTION

National Parks were designated in order to protect beautiful areas for the benefit of the nation. They came about as a result of the 1949 National Parks and Access to the Countryside Act, which put a legislative framework in place for the establishment of National Parks in England and Wales.

The first two National Parks were designated in 1951 and in 1957 the Brecon Beacons National Park was designated covering an area of some 520 square miles (1346 sq. kilometres). Until 1995 the Brecon Beacons National Park Authority was a joint committee of the then local County Councils until the Environment Act of that year laid down legislation to establish National Park Authorities as independent, special purpose Local Authorities.

WHAT DO NATIONAL PARKS DO?

National Parks have two purposes: Firstly, to conserve and enhance the natural and cultural environment of the park, and secondly to promote awareness and understanding and enjoyment of its special qualities. These special qualities have been described as:

- the landscape and natural beauty
- the peace and tranquility
- opportunities for walking and access to open countryside
- open spaces and qualities of remoteness
- traditionally managed farmland and
- wildlife

In so doing the National Parks also have a duty to foster the social and economic well-being of the communities within the Park.

In delivering on their purposes and duty there are five key functions of National Park Authorities. These are to:

1. act as Local Planning Authority
2. act as relevant Authority for access to open countryside under the CROW Act
3. facilitate environmental programmes
4. provide public information, interpretation and education services
5. deliver the sustainable development fund on behalf of the Welsh Government.

SENIOR FINANCE OFFICER

THE BRECON BEACONS NATIONAL PARK AUTHORITY

The National Park Authority consists of 18 members, 12 nominated by the seven Local Authorities in the area and the other 6 nominated by the Minister for Environment of the Welsh Government.

This split helps to ensure that the local and national interests are represented at National Park Authority level. There is a range of key committees responsible for managing the business of the Authority. In addition, working and advisory groups, both internal and external, have been established to help in the decision-making process. Some 110 full-time staff equivalents are employed in two Directorates – Nature and Climate Change and Planning and Place, as well as the Chief Executive's Department – PR & Communications, Finance, IT, Legal, Democratic Services and HR. Staff and Members cover a wide range of activities and services and it is the key role of officers to provide advice and guidance to Members of the Authority to help them make decisions and set the vision and strategies for the Authority.

The Authority's key strategic document is the National Park Management Plan, which sets our aims, strategic objectives and Priorities for Action for the Authority (www.beacon-npa.gov.uk). In addition to this, we have an adopted Local Development Plan (www.beacons-npa.gov.uk) which provides the framework for future development within the National Park. The Authority is also developing its State of the Park Report, which will summarise the changing status of environmental, social and cultural assets in the Park. With delegated responsibility for Rights of Way maintenance and management we are implementing the Authority's Rights of Way Improvement Plan.

National Parks in England and Wales are Category V protected landscapes as defined by the International Union for the Conservation of Nature (IUCN). This recognises the involvement of people in shaping the landscapes. Like all National Parks in England and Wales, agriculture is very influential in how the landscape is managed. A viable, profitable, broadminded and innovative farming sector, working in close collaboration with the Park's communities, local businesses and public and voluntary bodies is fundamental to the landscape's future management. Flexibility and adaptability will be important qualities to address the challenges of climate change, energy descent pathways and demographic and social changes ahead.
